All Inclusive Hyperlinking

On the PDF's of your construction drawings, we link all callouts, details, equipment, fixtures, cut sheets, ASI's, etc. that can be linked so your team can start construction with the maximum level of functionality in your drawings. We build a custom index page that contains all drawings and a full Table of Contents for the Specifications so that your team can access any document from one starting location.

Included in our Services

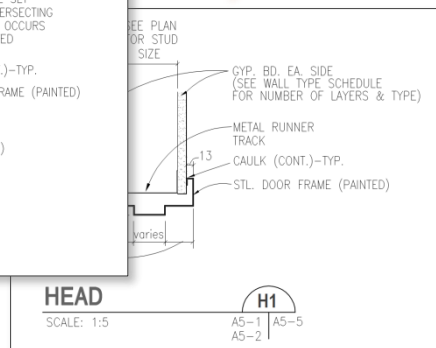

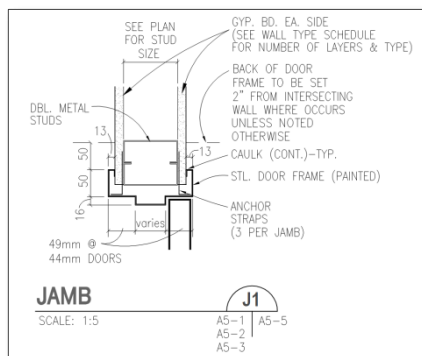

- Linked Drawings and Specifications Index
- Back/Next (page flip) and Return to Index buttons on each page
- Architectural
- Structural
- Civil
- MEP including Lighting
- Specialty Equipment

See Page 2 for more detail...

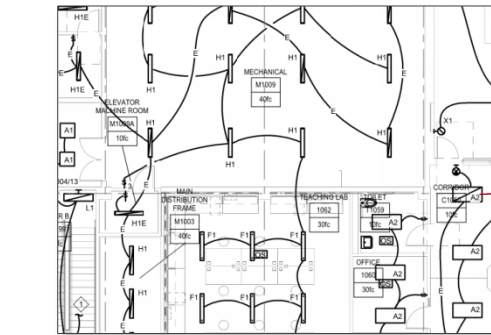

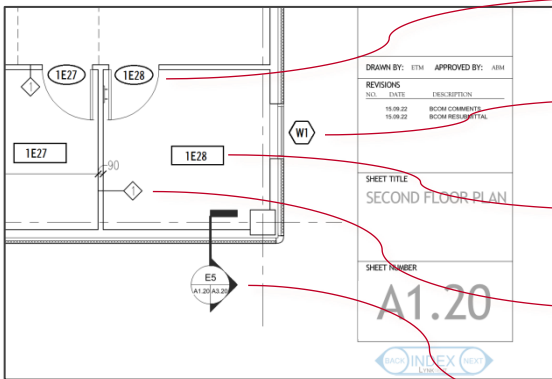

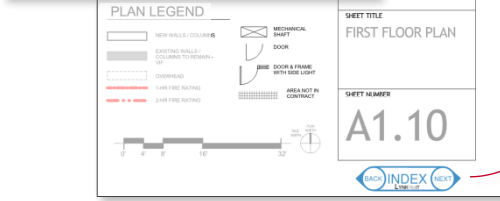

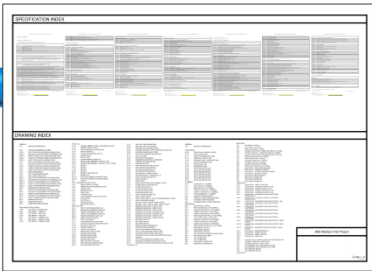

Other Services

- Calibrate viewport scales for accurate measurement
- List of all detail instances
- Toggle Menus: Flip between arch., MEP, etc. on floorplans
- Ongoing maintenance of ASI's, bulletins, and RFI's
